

RVRA Public Notice Spur Road Opening For Solid Waste Transport

RVRA anticipates opening its new road for its tractor trailers and all associated landfill truck traffic on Thursday, July 29, 2021.

The road is not 100% complete. Some construction on the road will continue for up to several more months, depending on the weather. However, all RVRA associated truck traffic will be using the new road during this period and will not be using Bradshaw Rd.
