

# *Partying With Pollution*

Where Responsibility Meets Fun

Balloons and plastic ribbons can become deadly litter for local waterways, beaches, and the wildlife that frequent them.

It is illegal to release any non-biodegradable balloon outdoors! Anyone who is convicted for this offense is liable for a civil penalty of \$25 per balloon, paid into the Game Protection Fund.

So, what should you do to party responsibly?

**Do not release any balloons!** Instead, release some "Flying Wish Papers" or send some flower petals down the river. The fish and critters will thank you!
