PlanView Web Application

Roanoke County, VA

Program Year: 2021

Abstract:

Roanoke County, Virginia's PlanView application is a customized solution that addresses the County's need to empower their citizens to locate and retrieve scanned building and site plans and obtain information about projects using a location based interface. To locate and retrieve a scanned plan, simply click on the map or enter an owner name, address or tax ID number (Parcel ID) in the search box. The PlanView app was created from the ground up with accessibility in mind, and an emphasis was placed on integrating the latest technologies to ensure mobile compatibility and the use of location services. The PlanView app offers government transparency to its citizens, by including road construction plans, sewer construction plans, water construction plans, county owned construction plans, drainage and stormwater construction plans and maps in an easy-to-use desktop or mobile solution. Citizens and staff are no longer tied to desktop computers, as the PlanView app can be used on a variety of mobile devices, from any location. This increased ease-of-use helps streamline the day-to-day operation of staff while giving citizens access to County data whenever, and wherever, they choose. Please click on the following link to launch the PlanView application <https://planview.roanokecountyva.gov/>.
