TriView Web Mapping Application

Roanoke County, VA

Program Year: 2019

Abstract:

Roanoke County, Virginia's TriView web mapping service is a customized solution that combine Google Maps, Google Street View Eagleview's Pictometry imagery into one embeddable control that utilizes a simple and easy to use interface. The TriView app was created from the ground up with accessibility in mind, and an emphasis was placed on integrating the latest technologies to ensure mobile compatibility and the use of location services. The TriView app offers a new level of government transparency to its citizens, by including a vast array of acquired public data in an easy-to-use and mobile solution. Citizens and staff are no longer tied to desktop computers, as the TriView app can be used on a variety of mobile devices, from any location. This increased ease-of-use helps streamline the day-to-day operation of staff while giving citizens access to County data whenever, and wherever, they choose. Please click on the following link to launch the TriView application <https://triview.roanokecountyya.gov/?lng=-79.9872606&lat=37.22257456°=279.56770829> .
