GIS Team Receives Three Honors from the National Association of Counties

(ROANOKE COUNTY, VA – July 14, 2024) Roanoke County's GIS Team has been recognized with three 2024 Achievement Award from the National Association of Counties (NACo). The awards honor innovative, effective county government programs that strengthen services for residents.

The awards were received for the following new GIS applications:

- Trash Day Search Web Application, which allows citizens to enter their address and easily find their upcoming trash collection day and bulk and brush collection schedules;
- What's Developing Application that enables residents to preview new and upcoming developments across Roanoke County;
- Town of Vinton Stormwater Outfall Management Application that allows staff to collect and enter required stormwater data from the field that feeds directly into the Town's stormwater management system.

Each year, NACo's Achievement Awards recognize outstanding programming in 18 categories aligned with the vast, comprehensive services counties provide. The categories include children and youth, criminal justice and public safety, libraries, management, information technology, health, civic engagement and more. Launched in 1970, the program is designed to celebrate innovation in county government. Each nominated program is judged on its own merits and not against other applications.
