Questions and Responses

- 1) If we are the low bid on each project 2025-037 and 2025-038, given the time constraints and company size, we may not be able to do both jobs at the same time. What will the County do then?
 - a. To allow all parties to participate to the fullest extent and as fairly as possible, the County will extend the Due Date of this project **2025-038 - Stream Restoration of a Tributary of Mud Lick Creek along Canter Drive, to Wednesday October 23, 2024, at 2:00 PM**. Any bid received at that time will be considered binding and follow all standards as stated in the project documents.
